Advice To Parents And Motorists

"With the warm summer weather the frequency of crimes of passion and violence invariably increase.

The hitch-hiker and child mauler have become dangerous menaces and it is a form of life insurance for the motoring public to avoid giving rides to the unknown hiker on the highway. To pick up these people means gambling with the motorist's life and property, as well as the lives of family or of friends travelling with them. Even picking up women, hitch-hikers leaves a male motorist open to unjust accusations.

As a preventive measure against the child mauler, parents must impress upon their children the dangers of playing in lonely spots,

accepting rides or taking gifts from strangers. A little attention by parents is a logical contribution to crime prevention.

The parents of teen-agers could impress upon their children the dangers of placing themselves in a position which could mean they are open to attack. Many offences occur because these young people have thoughtlessly placed themselves in a vulnerable position. A little plain talk now may save years of regret.

Police agencies must necessarily seek and obtain the co-operation of the public for their own protection. An attack on a child or young adult is a harrowing experience which can leave an indelible life impression. Many of these attacks can be avoided if the young people are given proper disciplinary guidance by parents.

The Fourteenth Annual Coleman Rodeo week-end will get underway here on Friday evening, July 3rd with the big parade and the rodeo to be held on July 4th.

Friday Events—

The popular week-end will commence in the Coleman Arena on Friday evening when a giant rodeo bongo, dance and carnival will be held commencing at 8 p.m.

Claims for the "Stake Your Claim" event of the rodeo week-end will also be sold in the vacant lot on main street near the Coleman Hardware. With claims to be sold Friday evening and all day Saturday, all will have an opportunity of staking a claim and getting their chance on winning one of the four prizes which will be awarded to the bonanza claim winners by means of a secret method. Prizes besides the \$100 first and \$50 second, also includes two \$25 cash prizes.

Saturday Schedule—

On Saturday morning at 11:30 a.m. crowning of the Rodeo Queen will be made by Rodeo Guest Mayor Shackelford of Lethbridge, on the corner of the old post office building. The two queen contestants are Miss Pat Huchala, sponsored by the Blainmore Board of Trade and the Crookets Ball Club, and Miss Anne Wenko, sponsored by the CVO, the CWL and the Holy Name Society of Coleman.

Judging of the parade entries will be made at the assembly square on the flats in East Coleman after which the parade will get underway at 12 noon sharp.

Following the parade the Rodeo will get underway at 2 p.m. under the direction of Herman Linder.

assisted by William Fraser. Lawrence Kindt, MP, will officially open the Rodeo.

At 8 p.m. Saturday night the "Silver Spurs", a dance revue from Spokane, Wash., will be featured at the night performance in the Coleman Arena, where the Brooks band will also be in attendance.

The Silver Spurs, well known in Coleman, are just completing a tour of North America. The troupe features folk dances as well as modern dancing and specialize in Oriental dances such as the Bamboo dance and Indian Dance.

Black flag numbers will also be featured to display the costumes of the dancers.

Parade Route—

Parade Marshal Ed Corson has promised that this year's parade will again be one of the biggest and best in Alberta.

The parade will assemble on the flats east of the hamburger stand in East Coleman, and after judging is completed the parade will get underway at 12 noon sharp.

The parade will proceed from the centre blinker light west to the Kananaskis Service Station, and then turn south and proceed to Third street. The parade will then move west to Central avenue, then turn south to the Bank of Commerce and turn east and proceed east over the bridge to Victoria avenue, and then turn south to the Main street. The parade will then proceed west to the Elks hall up the main street on Granby avenue, and then turn north for dispersal on Second street.

Nine Section Parade—

Parade Marshal Corson stated that since the RCMP have refused to lead the parade this year, arrangements are being made to have a number of cowgirls lead the parade, who will be followed by the Crows Nest Pass Band.

The second section of the parade will be led by the Cowley band, and followed by the Boy Scouts, while the third section will be headed by the Pincher Creek band.

Leading the fourth section will be the C-JOC-Elites led by Anne Lukiv of CJOOC, Lethbridge, followed by the Calgary Airforce band.

The fifth section will be led by the Lethbridge Bonny Doone Pipe Band, while the Brooks band will lead the sixth section, and the Vauxhall band the seventh section.

The eighth section will be led by the Milk River band and the RCME band will lead the last section which will be followed by the cowboys and cowgirls.

The Lethbridge Shriners Desert Scooter Patrol will be following the second section and will feature 15 scooters and 28 riders of Lethbridge who immediately after the parade will put on a drill on the Coleman Main street in the block between the vendors and Vets' Insurance.

Parade Marshal Corson has requested that all decorated cars and floats be on the assembly grounds no later than 11:15 a.m., as judging starts at 11:30 sharp, so that

the parade can start on time.

There will be three prizes for floats, and cars, two for cowboys and cowgirls, two for clowns and two for boys' and girls' bike entries. Mr. Corson has announced that a welcome is extended to all school students and others to enter the parade in clown costumes to brighten up the parade.

The first ten entries will receive a special award. The parade marshal announced that he will again sponsor a prize for the best float in the entire parade. The children and bike section of the parade will form between the Catholic Church and Catholic hall, and will fall in at the end of the first section of the parade.

The Queen and runner-up will ride in a decorated car or float in the fourth section of the parade, while an official section of the parade will include mayors from all Pass towns, from Granbrook, B. C. east to Lethbridge.

For the Rodeo and parade Chief of Police Ed Corson has stated that 25 special police will be put on duty to direct traffic and keep order. All are asked to co-operate with the police.

The one-day Coal Town Rodeo is a member of the CPA and of the IRA. The affair this year is under the direction of Rodeo President Eugene Fabro, Secretary Roy Upton and Treasurer Armando DeLuca.

Members of Victoria Rebekah Lodge No. 7, attended their annual Church Service on Sunday at St. Alban's Anglican Church.

A number of Sisters were unable to be present due to illness. A social hour and lunch was enjoyed after the services at the home of Mrs. T. Holstad.

Fire Chief Henry Zak of Coleman Volunteer Fire Brigade, has announced this week that plans are being finalized for the annual Hose Coupling competitions to be held on July 1st.

Chief Zak states that teams from all over southern Alberta, British Columbia and the United States will be on hand to compete for the various awards in the day's events. The affair will get underway with a parade of competing fire brigades who will march to the street near the Coleman school where competitions will be held.

Coleman Fish, Game Assn. To Hold Fish Derby

The Coleman Fish and Game Association met last week when a committee comprising Oratio Celli and Jim Kerr reported on their find after a check was made on the dam built by the Association.

The men reported that the water was some 24 inches below the spillway which indicated a low condition.

Lawrence Scheffelman, game officer of Pincher Creek, will make a net check of the fish in the dam to find out how the fish are faring and how much growth they are showing. This will be done with a view to possibly restocking the dam. It was pointed out at the meeting that plantings made in the district by the game department this spring included plantings of 20,000 fingerling cut throat trout in Crows Nest Lakes and an additional 10,000 in Summit Lake.

A committee comprising Andy Dow and Henry Thierghen are delegated to meet a number of Blainmore sportsmen with a view to inviting Blainmore sportsmen to join the Coleman Association since there is no club functioning in Blainmore.

The Coleman membership at present stands at 120 paid up members and a drive is being planned to increase this number considerably.

It was decided to hold a Fish Derby this year and two prizes will be awarded for each of the three species of fish which will include Dolly Varden, cut-throat and Rocky Mountain whitefish.

Weigh-in station for the entries is the Coleman Hardware Company. Prizes for the biggest fish caught will be awarded this fall. A letter of thanks will be sent to William Goodwin for his donation of cash for one of the prizes.

Minerva Chapter, O.E.S., Honor Veteran Members

Officers and members of Minerva Chapter No. 41, honored four of their oldest members in the persons of Mrs. K. Bouthillier, Mrs. E. Lonsbury, Mrs. M. Dewar and Mrs. A. C. McDougall, of Kingston, Ont. at their regular meeting held on Thursday evening of last week.

Mrs. E. Wilson, W.M., in a few well chosen words, presented each member with a gift in the form of a Star Lapel Brooch for which the honored members voiced their thanks.

Mrs. C. Garner, who will leave shortly for a holiday to be spent in Scotland, was then presented with a leather hand bag, a gift from the officers of the Chapter. Mrs. G. Jenkins, in making the presentation, wished her "Bon Voyage" and a very enjoyable holiday. Mrs. Garner very ably thanked the officers for their gift and good wishes.

At the close of the meeting cards were played, honors going to Mrs. K. Bouthillier and Mrs. A. Williams of Blainmore. A delicious lunch was then served by the committee, bringing to a close a very enjoyable evening.

Pulpwood Logs on the Ottawa River, with the nation's parliament buildings in the background, symbolize the importance of the forest to Canada. Trough pulp and paper alone, the forest harvest brings in more than \$1 billion a year from sales abroad. Increasing public awareness of the importance of these world markets which, directly and indirectly, generate income and employment for hundreds of thousands of Canadians, was called for in

a brief presented recently to a committee of M.P.'s studying the nation's natural resources. Fire-try research and tax incentives to promote better forest management were held, by the Canadian Pulp and Paper Association brief, to be the most promising means of promoting greater use of our forest resources and the orderly expansion of the industries based upon them.

Card of Thanks

I should like to thank those who supported me in the recent Provincial Election. Although, from my point of view, the end result left something to be desired, it was a stimulating, enlightening experience which I thoroughly enjoyed.

Yours sincerely,
Mrs. W. J. Boyden.

Of Many Things

(By Ambrose Hills)
Experiment

Last week I wrote about a book called *The Management of Time*, by Jim McCay. During the week, I have been experimenting with its principles. They work.

One principle is the practice of alertness, in order to increase your output while on the job. To practice alertness, it is necessary to

change your routine — take a different route home from work, go to new places, try different foods. To do any of these things, you must be alert — and this practice tends to carry over into your job, and to increase your output per hour.

I found this to be true, and I hope I persist in the practice for a long time to come. By increasing my output per hour, I increase my freedom. I am less likely to be depressed by a pile of work undone. I ought to be able to get work done ahead so that my holidays will be carefree.

There is always a payoff for efficiency. True, increased output may not be of much use if there is no demand for the product; but in most cases, by increasing output per hour, the price of the product can be lowered, the demand then increases, and the producer and his customers both profit.

The profit is of different kinds. Money, yes. I am virtually certain to make more money if I increase my efficiency. But there are far more important gains; I feel better when I work better. I have a sense of accomplishment.

By giving more for less, I gain new customers and friends, and greater security.

This, of course, is a paradox many men never understand. They go through life trying to get more for less work. Their character, efficiency and self-respect diminish daily. I feel sorry for them. They are misled.

Would you like to increase your output per hour? Then get out of every rut for just one or two weeks and note the difference.

Rise fifteen minutes earlier; read a new book; take a new route to work; visit a new restaurant; make a new friend.

Just see how much more alert you are, and how it reflects on your production. I guarantee you will want to continue the experiment for a long time to come.

"Every Boy Belongs To Mankind"

On July 12th next some 91 Canadian Boy Scouts and Leaders take off from Vancouver airport in a giant new Canadian Pacific Airlines turbo-prop Britannia, enroute to the 16th World Scout Jamboree in the Philippines, (the first World Jamboree ever held in Asia). Following is a significant editorial from "boys' world" official magazine of the Boy Scouts of the Philippines —

"An impressive ceremony marked the recent laying of the Jamboree cornerstone on the slope of legendary Mt. Makiling (near Manila), site of the forthcoming globe-wide Jamboree. Scout and government officials, members of the Diplomatic and Consular Corps, representatives of the local press and civic leaders gathered to the scenic mountain spot to witness the solemn occasion.

To the uninformed the event was nothing but a social gathering or a sight-seeing excursion, ceremonies of similar nature having become as common as birthday parties and housewarmings. But to the Scout world, and to the civic-minded portion of the citizenry, the occasion was momentous and historic. It brought to reality a mammoth dream — the birth of an exclusive Scouting city in the Philippines, a metropolis which will serve not only a particular few but young mankind and its adult guides as a whole.

Every boy belongs to mankind. His welfare and happiness should be the proper concern of all. He should have a special place in the world where he can develop skills, learn crafts, meet good friends, train for desirable citizenship and leadership, share, even in a humble way, in the building of a peaceful world, and put to concrete reality, the civilizing idealism of the Scout Oath and Law.

The 300-hectare Jamboree site on the lofty terrain of Makiling will be the boys' "little acre" come July 17 - 26, this year. Some 12,000 boys from all parts of the globe will converge on it in peace and brotherhood for ten days.

After the event, the site will be a permanent shrine where the 120,000 Philippine Scouting populace will pilgrimage off and on to stage camporals, national jamboree and to train in the interest of Scouting progress for the greater service to country and mankind."

To become "contented" you need a poor memory and no imagination.

Dean Cousins Guest Speaker Teachers' Banquet

(MacLeod Gazette)

On Tuesday evening in the Palomino banquet room teachers of Macleod School Division held their annual dinner and social evening, at which Dean J. Cousins of Lethbridge Junior College, was guest speaker.

His subject dealt mainly with the history of southern Alberta, of which he has made considerable study and on which he wrote a paper several years ago as part of a university course.

He referred to the interesting facts of history he had gleaned from early files of The Gazette, which indicated that there were boosters in those days, maybe more energetic than people of the present day. He cited various incidents in which the pioneers were working towards the building of railroads, irrigation systems, etc.

Present were trustees of the school division, including Gordon F. Neale, and wife, Dick Mouser and wife, A. McGregor, chairman of the division; Frank P. Walshe, and A. P. Grant, secretary.

Bob Lang, of Staveland, was the chairman.

Dean Cousins was a former Coleman boy, and for many years was on the Coleman high school teaching staff.

To get your prospect lukewarm, you have to get yourself red hot.

Honored on 25th Anniversary

Mr. and Mrs. Fred Hirst were honored at a surprise party at the home of Mr. and Mrs. Dave Sudworth on June 8th, on the occasion of their 25th wedding anniversary. Mrs. Hirst is the only daughter of Mrs. T. Sudworth.

Lions Sponsor Eye Examinations

The Coleman Lions Club recently completed an eye inspection test of over 500 Coleman school children. It is reported that of the number tested, 11 required assistance, and have now had their examinations by an eye specialist in Lethbridge, and are being fitted with glasses. Total cost will be borne by the club.

The Lions have extended special thanks to the chairman of the committee, Horace Allen, for an excellent job of organizing and to drivers Gordon Dunford, Wally Kubica, John Owen and Percio Decerco who took time out to drive the children to and from Lethbridge.

Life of Riley

Have you heard about the rich eccentric bachelor who had only a few months to live and who had arranged to be buried in his Rolls Royce? He died as predicted, the oversize grave was dug and the day of the funeral arrived. One of the grave diggers watched the strange burial, waited until the car was lowered, and then turned to a co-worker and remarked in an awed tone: "Man, that's livin'!"

"Can You Stop In Time?"

For the three summer vacation months—June, July and August—Canada joins with the United States and Puerto Rico in a concentrated campaign for highway safety called "Slow Down and Live".

Sponsored in Canada by the Canadian Highway Safety Conference the drive this year bears down on the motorist who hugs the bumper of the car ahead, and carries the slogan "Can You Stop In Time?"

Safety experts have, for years, warned drivers to leave at least 10 feet between cars on the highway for every 10 miles an hour. Driving closer than that creates a terrible risk of sudden smash-up with the always-possible results—in injuries, damages to vehicles, or death.

On top of this, the Conference points out, is the peril created by panic that so often arises in the mind of the driver of the car being followed too closely. Seeing another vehicle practically riding his rear bumper, the motorist frequently tries to get away from the menace by speeding up or suddenly careening off the pavement to escape the tail-rider. In his fear, he can crash his car, pile into other vehicles or pedestrians or tangle traffic dangerously.

From coast to coast in Canada, individuals, organizations, industries and associations are set to promote

this vital campaign which began June 1st and comes to an end with the Labor Day week-end.

Tourist authorities expect the greatest influx of visitors in Canada's history as a result of an extended promotion campaign, the Royal visit, the St. Lawrence seaway and other attractions. Within Canada itself, the motor vehicle population is increasing rapidly to crowd the nation's highways more than ever and, with expanded road building programs in almost every province, these vehicles will have more places to go.

Crowded highways arouse impatience and tend to urge the unthinking driver to take chances, the Conference warns. This includes driving too close to the vehicle ahead, one of the most dangerous acts a motorist can try.

The Canadian Highway Safety Conference pleads with the motorist to realize his responsibility, as an individual, in the prevention of traffic deaths and injuries, and the reduction of the multi-million dollar economic loss that occurs in Canada every year as the result of highway accidents.

"Only the driver at the wheel," the Conference says, "can prevent a traffic accident. It's up to him." The Conference asks him "Can YOU stop in time?"

It takes a raft of friends to keep some people afloat.
